Tel: 07749 838367 or email tony.lundy@tlsafety.co.uk for further details

The TL Safety “Safety First” System includes;

- Purpose built online system personalised for your company
- Ability to create additional site specific documents at the click of a button
- Prepare risk assessments from the online template
- Prepare method statements from the online template
- Electronic training course recording with reminders when re-training is due and a direct link to our training page on our website.
- COSHH assessments from our extensive library and the ability to create your own.
- Large array of additional documents and templates, including sub-contractor assessment, working at height information, site inspection forms, tool box talks and many more
- An online accident book
- Auditing application, carry out audits on all relevant areas of the business with pre created audit templates. Additional audits can easily be created with automated reminders where required.
- Equipment register, creates an online storage of tools and equipment with automated reminders of inspections & maintenance when due.
- 24/7 access to the online system
- System improvements / bug fixing
- The annual fee includes the first user licence

The annual cost is just £1,000 plus VAT

Options:-

Pre populated risk assessments and method statements for your industry £100+Vat
(There may be a limited number of industries where we do not specialise in)

Additional user licence £200+Vat

Discount on additional user licences where more than 10 are purchased.
